### JUDGING

#### European Club Champion (ECC)

The title is awarded to individual exhibits and is awarded by the Judicial Commission. Two ECCs are awarded in each color category with 20 or more exhibited specimens, one for the male and one for the female.

#### European Clubmaster (ECM) and Vice European Clubmaster (VECM)

These titles are determined through calculation, as the sum of the points of a single breeder's four best-rated specimens (of either sex). The minimal required score is 378. One ECM and one VECM are awarded in every color category with at least 20 exhibited specimens. All colors with fewer than 20 exhibits will be merged into one new, special category. In case two or more breeders have the same score, the title is awarded to all of them.

The winners of the ECC, ECM and VECM titles will be given the designated certificates and prizes. Special Association Exhibition awards will be given out by the leadership of each special association.

## COMPLAINTS

Exhibitors are not entitled to any compensation for stolen, diseased or dead animals. The animals will be properly cared for and the hall will be monitored.

## SALES

During the exhibition, any form of private sale in the hall, in its parking lot and within 500 meters of the hall, is strictly forbidden. The price of a pigeon is decided by the exhibitor when applying for the exhibition. Each transaction is carried out with the knowledge of the Competition Committee to which a fee of 10% is paid per sold pigeon. Exhibitors are therefore not allowed to open cages, take pigeons out of them, add or alter the prices on their own at any time.

## HEALTH REQUIREMENTS

Each exhibitor is obliged to submit an official document signed by a licensed veterinarian confirming the health condition of the applied animals. By signing the application forms, you guarantee that all applied animals are healthy, vaccinated, have been provided regular medical and hygienic care and that all their given data is correct (ring marks, age, sex...).
